____ Scientific measurement quiz with 100%

____ Scientific measurement LAB

Level 3 (20 pts.)

Choose one of the following assignments:

____ Write, perform and film a music video that explains scientific measurement. Your song must be memorized (you may not read it on film) as you sing. You may work with a partner from your class, both must appear in the video and both must sing and have equal parts. You will also need props and costumes in your video. You may perform the song live, it must follow the same criteria.

____ Write, perform and film a music video that explains "What is Life" Your song must be memorized (you may not read it on film) as you sing. You may work with a partner from your class, both must appear in the video and both must sing and have equal parts. You will also need props and costumes in your video. You may perform the song live, it must follow the same criteria.

____ Make a flip book that explains **each** type of scientific measurement. Your poster or book must have pictures and text that defines and explains, with examples, what unit you are writing about.
